

Environmental Policy Statement

The Company is committed to minimising adverse effects on the environment and for the prevention of pollution whilst maintaining high standards necessary to meet the needs of our clients, general public, employees and stakeholders.

Westshield considers effective environmental management is as important in terms of business continuity as quality and health and safety and is committed to continuous improvement in this area. The company will also endeavour to support its suppliers in achieving these challenging goals.

The Company will:-

- Assess the environmental effects of the Company's activities.
- Reduce the amount of waste produced.
- Reduce the consumption of raw materials, water and fuel's.
- Benchmark the company's performance in line with industry standards and requirements.
- Endeavour to minimise the production of pollutants to water, land and air associated with its activities.
- Strive to limit the use of materials that are known pollutants where a suitable alternative is readily available.
- Ensure that all materials defined as waste are disposed of in a responsible manner that meets current legislative requirements.
- Contribute to Corporate Social Responsible activities within the local community.

The Company will encourage environmental awareness and understanding for all employees, suppliers, customers and subcontractors. Where practicable, the Company will provide information and assistance to customers and public on environmental issues arising from its operations.

Within the Environmental Policy, specific duties have been assigned for the co-ordination and compliance with environmental legislation appropriate to our business.

The policy and its associated procedures shall be formally reviewed at the annual Management Review meeting or as a result of changes to legislation, stakeholder or client requirements.
